

AVDHOT GALVANIZING LLP

Add: Plot No 19, D-1/2/4, near Kinetic Engg.
Chinchwad MIDC, Pune - 411019.

Contact: 9822863327

Email: avdhootgalvanizingllp@gmail.com

GST NO: 27ABJFA0663R1ZX

PRODUCT RANGE:

- 1. Galvanizing (ZINC coating) of Poles, Angles, Channels, Strips, Cable trays, Structures, tower materials etc.**

- 2. CABLE TRAYS (LADDER & PERFORATED), CABLE DUCTS / TRUNKING, in Mild Steel., Mild Steel Hot Dip G. I., Painted, Powder Coated, S. S., & ALUMINIUM. etc.**

AVDHOT GALVANIZING LLP has a leading name over the years for manufacturing & Galvanizing of various types of Electrical & Instrumentation the Wide Range of Erection hardware like **Cable Trays, Cable Ducts, Utility Channel / Strut (Flexible Support System), Trefoil Clamps Earthing Strips, Plates, Electrodes & GI Wire**. With pioneering spirits and dynamic team of engineers, it has been a number of outstanding achievements to its credit.

RAW MATERIAL

Quality begins with the raw material. A variety of raw materials produced & stocked from selected reputed suppliers. All raw materials inspected & tested before they are used. To insure that this confirms to the desired standards & specifications. We use Standard Zinc of grade 99.995% for galvanizing process.

LIST OF RAW MATERIALS

- SOLID ZINC
- ZINC CHLORIDE
- ALUMINIUM CHLORIDE
- HYDRO-CHLORIC ACID(HCL)
- SODIUM DICHROMATE
- WATER
- M.S. CHANNEL/ANGLE/POLE
- M.S. SQUARE TUBE
- M.S. STRUCTURES
- M.S. SHEETS

FINISHED PRODUCTS

- GALVANIZED POLES/ANGLE/CHANNEL
- GALVANIZED STRUCTURES
- CABLE TRAYS (LADDER/PERFORATED TYPE)

MANUFACTURING

Using modern machinery & technology, we take care at every stage of manufacturing. To set standards & specifications rigid stage inspection & testing are an integral part of manufacture programmer.

QUALITY ASSURANCE PROGRAM

Every product is subjected to rigid quality control procedure. Every stage of inspection by qualified staff enables us to achieve the highest quality standards.

DETAILS OF EQUIPMENTS AND TOOLS

<u>Sr. No</u>	<u>Description</u>	<u>Units Available</u>
1.	Steel Fabrication Tools	
	a) Welding machine 3 phase	14
	b) Welding machine single phase	09
	c) Gas Cutters	06
	d) Welding rectifier	03
	e) Plasma Cutting Machine	01
	f) Rolling Machine	01
	g) Press Brake 2.5mX4mm	01
	h) CO2 Welding Machine	09
2.	We are having our own GALVANIZING plant for zinc Coating on M/S Material.	

Following are some Images of our Galvanizing Plant :

Following are some Pictures of our Machinery & Tools:

20 to 50 Ton Power Press Machines

3 Mtr Capacity Hydraulic Bending and Shearing Machines
